

Recommendation of the Lesotho meeting on 16-18 April 2008

1. Collaboration between SCs to be done by participation of respective Chairpersons or their delegated Committee members in the other meetings
2. Laboratories are encouraged to increase capacity to test for residues of veterinary medicinal products and chemicals in view of establishing regional capacity (Centre of Excellence)
3. RAHC to look into possibilities to fund and organize a regional training course on equipment calibration and service in close collaboration with RSA in 2008
4. It should be noted that the SC approves that the Working Group on AI shall operate for at least the next 2 years

Next meeting: it is recommended that the next meeting shall be held in **Swaziland** during the week of 10 to 14 November 2008.
